

***S SQUARE
EXTRUSION***

Manufacturer Of Extrusion Machinery

Fast is fine but accuracy & satisfaction is everything

COMPANY PROFILE

S Square Extrusion, a professional manufacturer and service provider of extrusion machinery and equipments.

Since the establishment basing on technological innovation strength and various varieties of extrusion machines, we are best and trust worthy manufacturer of extrusion field. We are having 7 years of experience in the plastic pipe extrusion line with deep understanding of plastic extrusion technology and owning excellent metal processing ability.

We are committed to provide engineered products and supportive services related to design, manufacturing, maintenance and supply in a quality and competitive manner for the plastic pipe extrusion machinery market.

Our company is dedicated to long term growth and committed to on-going product development for the best finished product.

Our company offers a wide range of sophisticated extrusion lines suitable for a wide different variety of required by end product with best quality.

Our actions will be guided by expert manufacturing and management practices. We are trying our best to be out of the common in product quality. As our company always put the customers benefit on the first place.

We believe, “customers satisfaction and success is our future”.

Our offered range of products are widely acclaimed for quality and services.

We provide services in :

- Single & Twin extruder machine
- Single & Twin screw barrels
- PVC & HDPE die head
- PVC pipe plant
- High speed PVC mixers
- PVC cutter
- PVC cooler
- Printer machine
- Jockey machine (co-extruder machine)
- PVC pipe plant auxiliary items.

Vision : To be the first and best choice in the field of pipe extrusion machinery and equipments.

Goal: Produce quality products to meet or exceed our customers expectations.
